

Donegal Ultra 333 Specific Rules

- There are now unsupported slots for this distance.
- The same nighttime rules apply here as in the 555 i.e., 7PM to 7AM where the support vehicle stays in attendance of the rider.
- The 333 is for Solo and Two-person teams only.
- Time allocation for the 333 is your start time + 25 Hrs. with a compulsory check-in at the Ozanam Centre.
- There will be Text in checkpoints like the 555, which will be released well before the event date, along with the route.
- We will allow a minimum of just one car (2nd shuttle car is optional) to serve as support, with just one person, the driver of that vehicle, as crew for both the solo and two-person teams, HOWEVER, if you choose just one person as crew you CANNOT hand up bottles and food from the driver's side of the vehicle, you will have to STOP to refuel the rider, you need a second person to hand up supplies from the passenger side in a safe place. In the case of two-person teams, the resting rider, if being carried in that crew vehicle, can hand up supplies from the passenger side of the car.
- All the rules regarding tracking on the rider, rules of the road and littering, and all the standard 555 rules, including any Covid requirements, will apply to all competitors unless, as above, there are specific rules for the different distances.
- If, after reading the rules and regulations you still have any questions, please email dawur555@gmail.com and we will reply as soon as possible.
